2015

Foreword

The NEBOSH National Certificate in Environmental Management, or **NEBOSH Environmental Certificate** for short, covers the practical issues of managing environmental risk and environmental health and safety. The NEBOSH Environmental Certificate syllabus takes a risk management approach based on the best practice and international industry standards, including:

- **Environmental management systems and environmental impact assessments**
- **Sources and use of energy and energy efficiency Control of pollution Planning for and dealing with environmental emergencies.**

Who Should Attend?

- **Managers, supervisors and employees** who have responsibility for managing environmental issues, as part of their day to day duties. This environmental qualification focuses on UK law and environmental management systems. It also provides a sound basis for progression on to the NEBOSH Environmental Diploma.
- **No previous environmental management** knowledge is required but candidates should note the assessment includes a written exam and the requirement to write a short report.

Course Materials

- The NEBOSH Environmental Certificate training will provide for each delegate a course workbook and official Environmental Certificate Study Book to assist them both during and after the course which will contain information,

Course Tutor

Our environmental course tutors are qualified and experienced health and safety consultants with a background in health and safety training and delivering engaging health and safety training courses.
